Name a time. At best, County inadvertently placed City in a bad position. At worst, could be viewed as an attempt by County to co-opt you on Arl3.

I agree. Seemed rather odd and I didn't see you on the distribution so sorry for the additional email. Perhaps we should meet to discuss a strategy?

Yes, Paul sent that to me just now. Don't believe the City has a formal request into County for removal of Brekhus/Beach from UGA. Seems highly inappropriate for them to schedule for a hearing on that issue without consultation with the City and before seeing the City's draft Plan update (which we are trying to coordinate with the ARL3 EIS discussion and the buildable lands analysis, just completed) so that it all comes together at the same time. Someone at the County has jumped the gun, my opinion.

Troy:

Attached are the various notices, depending on whether the property owner is within either the proposed Arlington UGA addition or removal area or in the vicinity of either one, for the county planning commission public briefing on September 9 and the commission's public hearings beginning on October 7. This is the only notice the county is sending for the county planning commission's 2015 Update and Docket XVII review process.

Thanks

Steve

Good Morning Steve-

Can you please send me a scanned PDF copy of the post cards that the County recently sent to residents in the Brechus/Beach area? We are receiving inquiries from residents regarding the notice. With regards to future notices from the County to residents in the Brechus/Beach area and proposed UGA expansion area west of I-5, could the County please send us a copy of the notice? Thanks much.

Sincerely,

Troy Davis, Associate Planner
